

Acme Finance NBFC - Internal KYC Policy

Acme Finance Private Limited is committed to preventing money laundering and to complying with applicable KYC norms. This policy sets out how we identify and monitor our customers.

1. Customer identification. At onboarding, every customer must submit an Officially Valid Document (OVD) - passport, Aadhaar, voter ID or driving licence. No account is opened without a verified OVD on file.
2. Risk categorisation. Each customer is classified as low, medium or high risk at onboarding based on occupation, geography and expected transaction profile. Due diligence is applied in proportion to the risk category.
3. Customer Due Diligence. CDD is performed for every customer at the start of the relationship and whenever we doubt the accuracy of previously collected information.

Acme Finance NBFC - Internal KYC Policy (continued)

4. Enhanced measures. For customers who appear to carry higher risk, additional checks may be carried out at the discretion of the compliance team.
5. Updation of records. Customer KYC information is reviewed and updated from time to time based on the customer's risk category, so that our records remain current.
6. Remote onboarding. Customers may be onboarded remotely through a video call in which an officer verifies the customer's OVD and photograph.
7. Record retention. Records of customer identity and transactions are retained for a period of three years after the account is closed.

8. Governance. The company has appointed a Principal Officer who is responsible for overseeing KYC compliance and for internal monitoring of customer accounts.

9. Training. Staff involved in onboarding receive periodic training on the company's KYC procedures.

10. Review. This policy is reviewed by senior management at least once a year and updated as required.
